ASIL MAKINA

San. ve Tic. Ltd. Sti.

Asil Makina, 1984 yılında İstanbul' da Hasan KILIÇKIRAN tarafından kurulmuştur. 1997 yılında ticaret ünvanı ASİL MAKİNA SAN. VE TİC. LTD. ŞTİ. olarak değiştirilmiştir ve günümüze kadar bu ünvan ile faaliyetlerine devam etmektedir.

Asil Makina olarak, sektörümüzdeki 30 yılı aşan bilgi birikimimiz, tecrübemiz, gelişmiş makine parkurumuz, deneyimli çalışma arkadaşlarımız ve kesinlikle ödün vermediğimiz kalitemiz ile " Tekstil Makinaları Yedek Parçaları " imalatı yapmaktayız.

İstanbul' da üretim tesisi ve satış ofisi ile hizmet vermekte olan firmamız, Ülkemizin farklı bölgelerindeki müşterilerine daha hızlı hizmet verebilmek için 2010 yılında Gaziantep 2. Organize Sanayi Bölgesi' nde ilk şubesini açmıştır.

Dünyanın birçok ülkesine ihracatı bulunan firmamız, yurtdışı faaliyetlerini mümessillikleri aracılığı ile ve doğrudan ihracat ile gerçekleştirmektedir.

1.000' den fazla farklı üründe stoklu çalışan firmamız, müşterilerimizin taleplerini en kısa zamanda ve rekabetçi fiyatlarla karşılamayı hedef almaktadır. Ayrıca müşterilerimizin ihtiyaçları doğrultusunda kataloğumuzda bulunmayan ürünler için özel üretimlerimiz bulunmaktadır.

Kalite ve müşteri beklentilerini odak alan firmamız, sektörün öncü firması olarak çözüm ortağınız olmaya devam etmektedir.

Asil Makina was founded in 1984 in Istanbul by Mr. Hasan KILICKIRAN. In 1997 the trade name of company was changed into as ASIL MAKINA INDUSTRY AND TRADE LIMITED COMPANY and until today our company has been carrying its activities under the name of this trade name.

As Asil Makina Co., we manufacture spares parts for Textile Machinery with our over than 30 years knowledge, experience, machine park, work-mates and uncompromising quality.

Our company has production plant and sales office in Istanbul. We opened our first branch in Gaziantep 2nd Organized Industrial Zone in 2010 to provide our services to our customers faster.

Our company has many export activities to several countries. We carry out our business in foreign countries through our representatives or with our direct sales.

We have stocks for more than 1.000 various products to meet our customers' demands with competitive prices and faster. Additionally, we are able to manufacture special parts according to our customers' needs.

Our Company that focusing on quality and customer expectations, is still continuing to be your business partner as a sector leader company.

Genel Müdür
Hasan KILIÇKIRAN

OUR PARTS ARE NOT ORIGINAL SPARE PARTS BUT PERFECTLY INTERCHANGEABLE WITH ORIGINAL ONES.

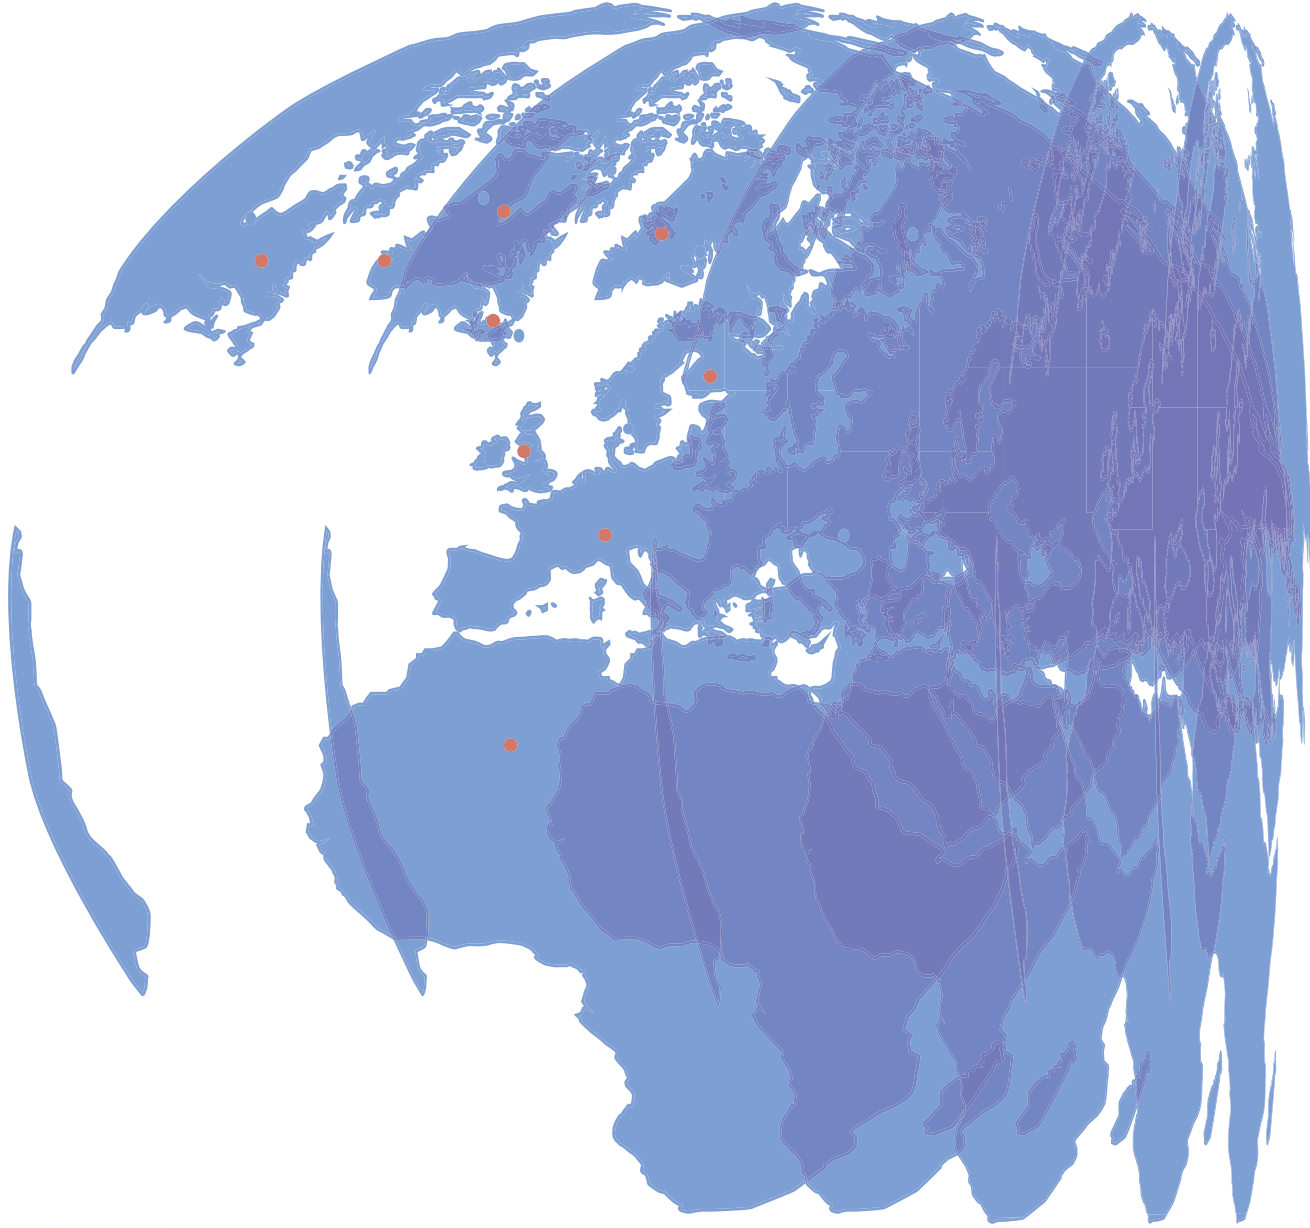

ALL ORIGINAL MANUFACTURERS' REFERENCES ARE ONLY USED TO IDENTIFY OUR INTERCHANGEABLE PRODUCTS FROM ORIGINAL ONES.

▶ APRON VE MAŞONLAR

▶ RUBBER APRON & COTS

WON CHANG

- ▶ WON CHANG Apron ve Maşonları
Türkiye Mümessili
- ▶ The Sole Agent In Turkey

▶ APRON FOR SPINNING & ROVING

TECHNICAL DATA

Test item	Unit	Outside	Inside
Hardness	shore-A	58-62	68-70
Abrasion	%	0.3	0.42
Slip	%	0.31	0.35
Static	mv	45	50
Rebound rest	%	25	23
Color		Grey	• Brown

• Brown : Reddish brown

▶ COT FOR SPINNING (COMPACT) & ROVING

• Hardness : Shore-A

• Hardness	Color	Fiber	Features	Type	Application
63	Yellow	100% Cotton Fine Count	Soft cot High fiber grip Less lapping	Alu-Core	Front roller for fine counts and excellent quality

• Hardness	Color	Fiber	Features	Type	Application
65	Purple	Cotton Blends	Soft cot Long life Less lapping	Alu-Core	Front roller for high quality and fine count

• Hardness	Color	Fiber	Features	Type	Application
70	Green	Cotton Synthetic Blends	Abrasion Resistance Long life	Alu-Core	Front roller for high quality and fine count

• Hardness	Color	Fiber	Features	Type	Application
75	L/grey	Cotton, Wool Synthetic Blends	Abrasion Resistance Long life	Alu-Core	Front and back roller for high yarn quality

• Hardness	Color	Fiber	Features	Type	Application
80	D/grey	Cotton, Wool Synthetic Blends	Abrasion Resistance Long life	Alu-Core	General purpose Front and back roller

• Hardness	Color	Fiber	Features	Type	Application
85	Blue	Wool Synthetic Blends	Abrasion Resistance Long life	Alu-Core	General purpose Front and back roller For high stresses

▶ BALLON & BESH COT

SPECIFICATION

SIZE(Length)	Thickness	• Hardness	Color
32mm	1.4mm	50	Grey
		62	Green
		75	White
		82	Blue
53mm	1.5mm	50	Grey
		62	Green
		75	White
		83	Blue
68mm	1.8mm	50	Grey
	• 2.2mm	62	Green
	75	White	
	1.8mm	82	Blue
94mm	1.6mm	50	Grey
		62	Green
		75	White
		82	Blue
125mm	2.3mm	75	White
		82	Blue
57(Besh)mm	1.4mm	62	Brown
	75	White	
	1.6mm	62	Green

- 2.2 : Without projection at inside edges
- Hardness : Shore-A

▶ RUBBING APRON FOR WOOL & BLENDS

Diameter	• Length	Outside	Inside
134.5mm	435mm	Grooved	Groove(T4.0)
146.0mm	465mm	Grooved	Groove(T4.0)
169.0mm	535mm	Grooved	Groove(T4.0)
173.0mm	550mm	Grooved	Groove(T4.0)
144.5mm	460mm	Grooved	Smooth(T3.5)
167.5mm	535mm	Grooved	Smooth(T3.5)

- Length : Circumference(approx.)
- Please mention following for orders
 - Diameter with outer circumference
 - Width & thickness
 - Inside grooved or smooth

▶ DRAWING & COMBER DETACHING COT

SPECIFICATION

▪ DRAWING COT

Hardness	Color	Features	Fiber
75	L-gray	Excellent Anti-static	100% cotton
80	Grey	High oil -resistance	Blends
85	Blue	High abrasion resistance	Synthetic, Wool

▪ COMBER DETACHING COT

65	Purple	Excellent anti lapping	Cotton
70	Green	High abrasion resistance	Cotton

▶ DRAFTING (BROAD) APRON

SPECIFICATION

Size(L x W x T)	Color(inside/outside)	Remark
460 x 145 x 1.6mm	Reddish brown/Grey	Elastic
500 x 145 x 1.6mm	Reddish brown/Grey	Elastic
460 x 160 x 1.6mm	Reddish brown/Grey	Inserted thread
500 x 160 x 1.6mm	Reddish brown/Grey	Inserted thread
510 x 160 x 1.6mm	Reddish brown/Grey	Inserted thread

▶ JUTE APRON, CLEARER TUBE, RUBBER BAND FOR WINDING DRUM

- We are supplying many kind of clearer tubes according to the various machines together with specific working conditions.
- They are used for 100% cotton, synthetic blends and Wool.

SPECIFICATION

Size (L x W x T)	Color (inside/outside)	Remark
496.37x187x1.6mm	Green & Grey	Inserted thread
496.37x213x1.6mm	Green & Grey	Inserted thread

⊕ 496.37mm(ID157mm)

- We are producing various Rubber Band for winding machine with elastic type and plain and knurled type as requirement.
- Color : Grey

▶ TEXTURIZING APRON

SPECIFICATION

Size(ID x W x T)	Color(inside/outside)	Machine
104 x 30 x 1.1mm	Dark brown/Grey	Barnag
100 x 30 x 1.1mm	Dark brown/Grey	Murata

* Various size is available for other machines too.

▶ TEXTURIZING COT

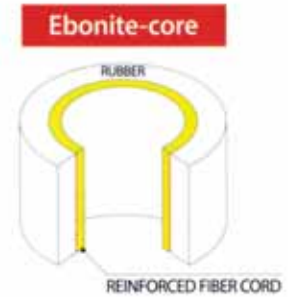

SPECIFICATION

Type	Color	Hardness
Alu-core(+BRD45&51)	Light brown & green	70+/-2
Ebonite-core	Light brown & green	70+/-2

* All cot can be supplied with straight or round edge as requirement.

• BRD : Bare Roller Diameter • Hardness : Shore-A

■ Won Chang texturizing cot(Nip roller) have special yarn control, abrasion, chemical and oil resistance, anti-static and long grinding cycle.

▶ OPEN END COT FOR SPINNING

SPECIFICATION

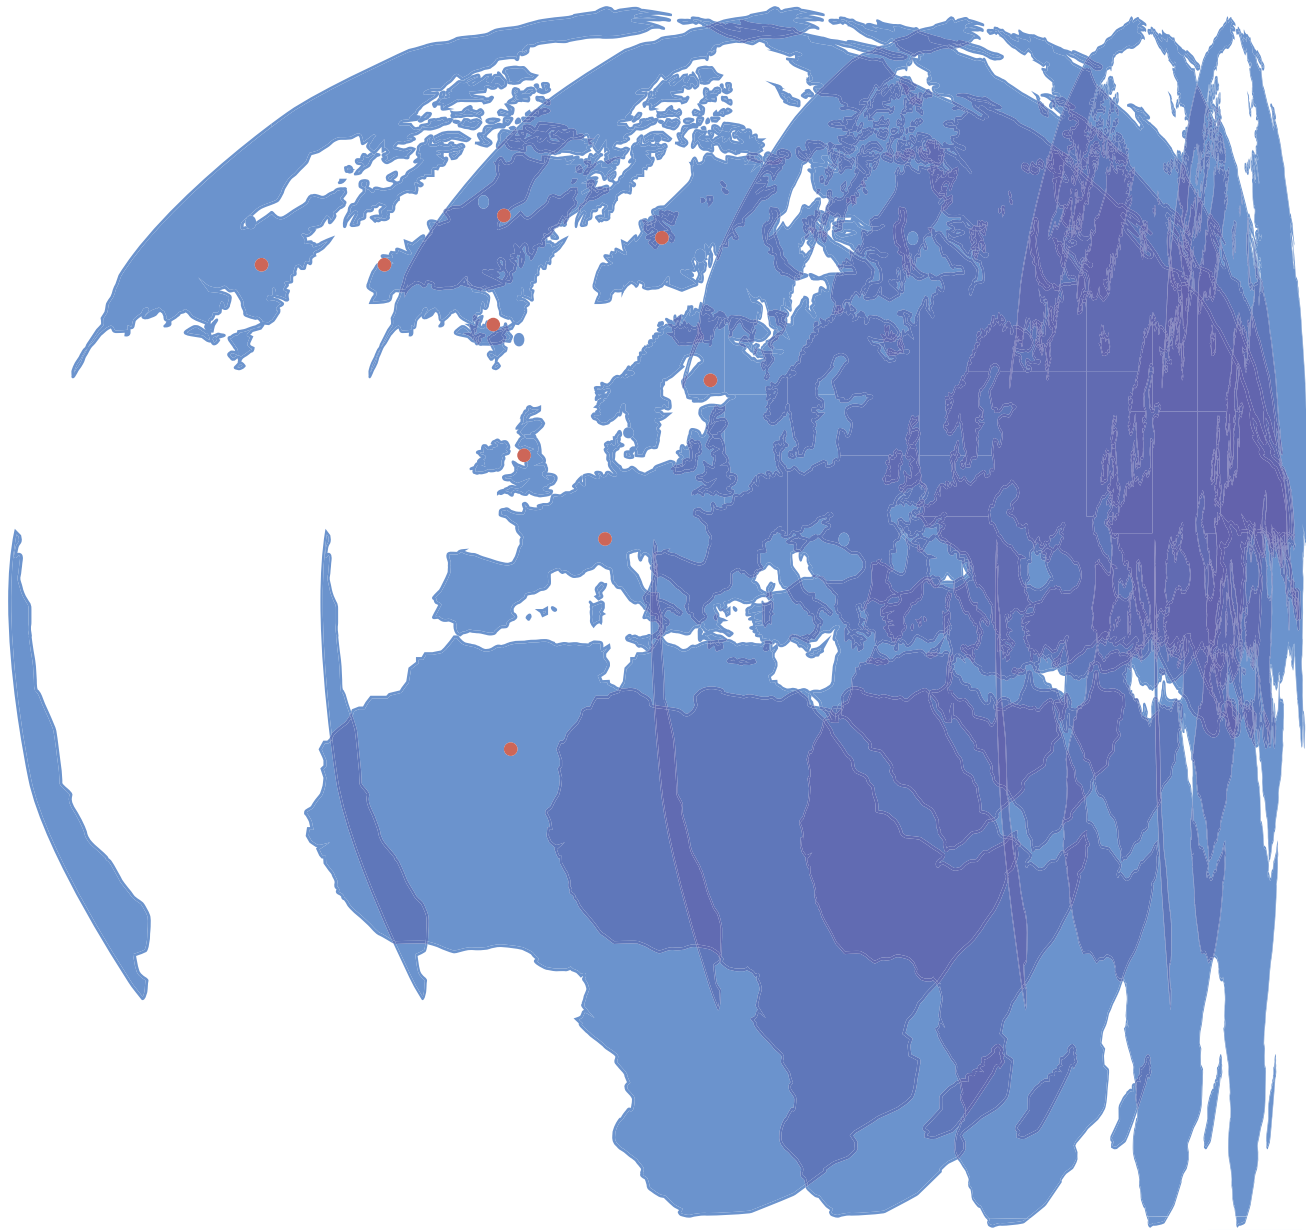

Hardness	Color	Features	Fiber
83	Grey	Aluminum-core General purpose	100% cotton Blends
65	Purple	Aluminum-core General purpose soft	100% cotton Blends

• High abrasion resistance • Excellent fiber control & static resistance

TÜM KAMALAR TZ 147 / 9 DIN 6885 NORM ÖLÇÜLERİNE UYGUN OLUP DÖRT YÜZEYİ TAŞLAMIŞTIR.

DÜZ KAMA

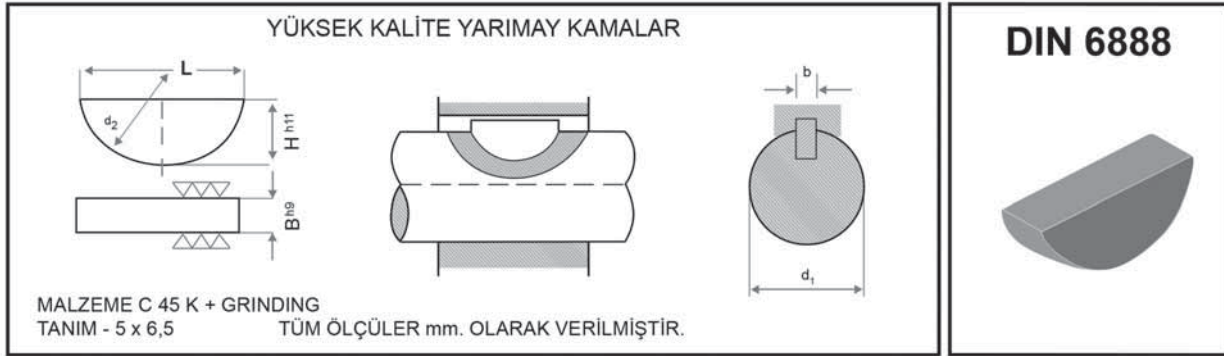

DIN 6885 Düz Kamaların dört yüzeyi taşlanmıştır.
Yüzey kalitesi RA 0.32 dir. Malzeme C 45 K'dır.
Kopma Yükleri 900-1200 N mm² arasındadır.

Yüzeylere taşlama operasyonu uygulanarak sadece soğuk kalibre edilmiş kamalara nazaran çok daha düzgün, rijit ve temiz yüzey elde edilmekte ve uzun ömürlü olması sağlanmaktadır. Buna bağlı olarak; kopma yüklerinin üst düzeyde olmasıyla zorlanmalardan dolayı kamada bozulma ve boşalma oluşmaz.

FEATHER KEY

Four surfaces of DIN 6885 feather keys are ground.
RA 0.32 surface quality. C 45 K materials.
Breaking loads between 900-1200 N mm²

Grinding on surfaces produces durable keys which have far more smooth, rigid and even surfaces than only cold calibrated ones. As a result, keys are not damaged or discharged due to forcing thanks to the high levels of breaking loads.

TÜM KAMALAR TZ 147 / 12 DIN 6888 NORM ÖLÇÜLERİNE UYGUN OLUP İKİ YÜZEYİ TAŞLAMIŞTIR.

YARIMAY KAMA

DIN 6888 Yarımaya Kamaların iki yüzeyi taşlanmıştır.
Yüzey kalitesi RA 0.32 dir. Malzeme C 45 K'dır.
Kopma Yükleri 900-1200 N mm² arasındadır.

Yüzeylere taşlama operasyonu uygulanarak sadece soğuk kalibre edilmiş kamalara nazaran çok daha düzgün, rijit ve temiz yüzey elde edilmekte ve uzun ömürlü olması sağlanmaktadır. Buna bağlı olarak; kopma yüklerinin üst düzeyde olmasıyla zorlanmalardan dolayı kamada bozulma ve boşalma oluşmaz.

WOODRUFF KEY

Two surfaces of DIN 6888 woodruff keys are ground.
RA 0.32 surface quality. C 45 K materials..
Breaking loads between 900-1200 N mm².

Grinding on surfaces produces durable keys which have far more smooth, rigid and even surfaces than only cold calibrated ones. As a result, keys are not damaged or discharged due to forcing thanks to the high levels of breaking loads.

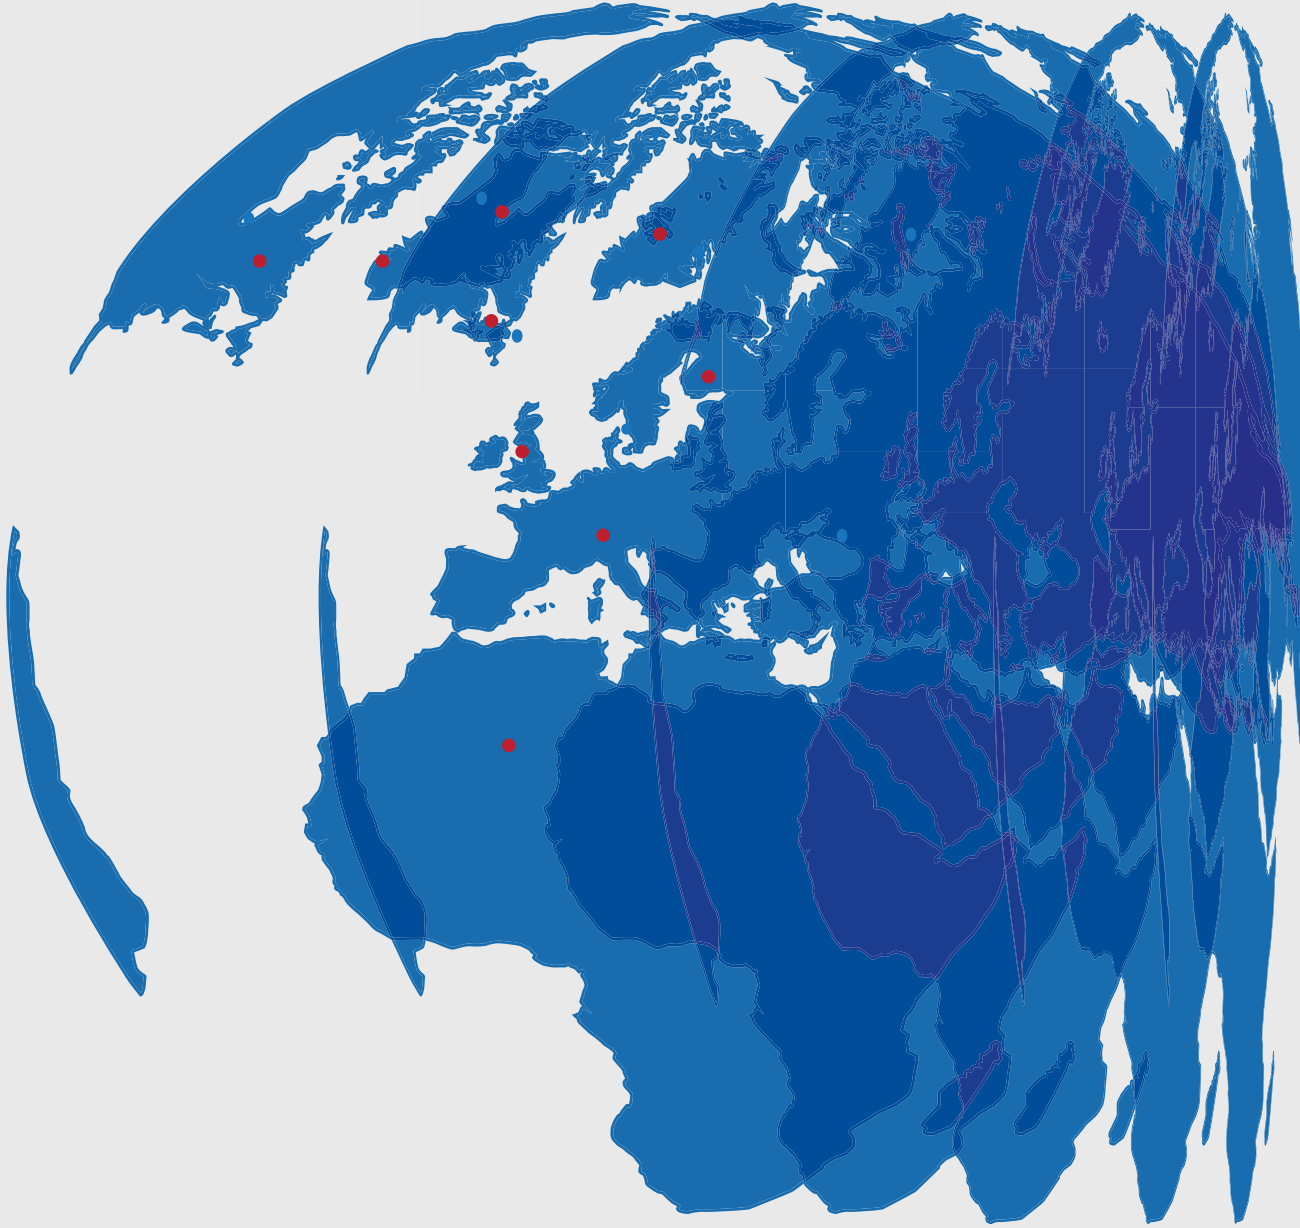

A series of horizontal dotted lines for note-taking.
